## Discover What 10 Software Insiders Already Know!

- "... a little company that has succeeded over the last five years in giving its customers a lot of value for their money..." — Richard O'Reilly, computer columnist
- "All the firm's programs are graced with features that the entire industry should be required to provide. Their manuals are the most honest in the industry." — T.R. Reid, syndicated computer columnist
- "... the two most important attributes of Software Toolworks' programs: they're priced low, and they work well." — The Washington Post
- "Unlike the software of many publishers these days, none of The Software Toolworks programs are hobbled by copy protection, nor does the company try to tie up its customers with mumbo-jumbo licensing-agreements..." — The Los Angeles Times "Computer File"
- "I don't know how The Software Toolworks stays in business charging such low prices for such nifty products..." — David Gerrold, computer columnist and noted science fiction author
- The Software Toolworks C/80 compiler is "... the best software buy in America..." — Microsystems
- "It would be the best of all possible worlds if some magic diskette could be made that would transform any hardware in such a way as to receive The Software Toolworks' numinous software." — Wm. F. Buckley, Jr.
- "The Software Toolworks has a whole raft of programs that work, and (the company) sells them for reasonable prices. I strongly recommend that you get their catalog." — Dr. Jerry Pournelle, computer columnist "Byte" and noted science fiction author
- "One of the original pioneers in low cost, high quality software, The Software Toolworks publishes over 50 solid products in MS-DOS and CP/M for under \$60." — Walt Bilofsky, chairman of The Software Toolworks
- "All products are shipped within 24 hours, come with a money back guarantee, and free technical support is available (though you'll hardly need it)." — Joseph Abrams, president of The Software Toolworks

**Media Master Plus** — Now you can run most CP/M programs on your IBM PC or compatible without additional hardware. Media Master™ lets you read, write and format over 70 different double density CP/M formats. ZP/EM™ (included) emulates an 8080 processor to execute CP/M software at machine language level giving you the equivalent of a 1 MHz 8-bit computer. Also includes terminal emulation for Osborne, Kaypro, Health/Zenith and DEC VT52 displays. Requires 192K RAM. For IBM PC and compatibles. — \$59.95

**TO ORDER CALL: 1-800-223-8665; in CA 1-800-228-8665**

The Software Toolworks

14478 Glorietta Drive, Sherman Oaks, CA 91423

U.S. and Canada add \$2.00 per order s/h. Overseas orders add \$5.00 per order. CA residents add 6.5% sales tax. Orders shipped UPS. Dealer inquiries invited.

**Mychess** — Award-winning world class chess program, featuring nine skill levels and over 850 opening moves. Prints moves and saves games in progress. Outstanding graphics display board on IBM PC and most popular CP/M computers. — \$34.95

**Toolworks C** — Full featured C compiler and run time library. One of the fastest on the market! New MS-DOS version produces relocatable object files (.obj). MATHPAK provides true 32-bit floating point and signed integer data types. CP/M and MS-DOS. Toolworks C Compiler — \$49.95  
Toolworks C Mathpak — \$29.95

**Airport** — You are an air traffic controller with radar screen filled with aircraft under your guidance. See how long you can last without cracking. Tougher than the real thing! CP/M and MS-DOS. — \$19.95

**LISP/80** — Experiment with artificial intelligence programming! Over 75 LISP functions. Includes source for an editor written in LISP and several demonstration programs. CP/M and MS-DOS. — \$39.95
